ABOUT INSTANT ACCESS

Instant Access is a specialist provider of access equipment including Aluminium Scaffold, Mobile Towers, Elevated Working Platforms (EWP), Swing Stages and Access Solutions.

We were the first company in Australia to offer Aluminium Mobile Scaffold and throughout our 45 year history we have continued to develop cost-effective aluminium access solutions. We currently operate 10 branches in Australia and 2 branches in New Zealand. Instant Access operates a quality system to AS/NZS ISO 9001:2008.

Mission Statement

Our goal is to be a leading provider of access solutions.

Objectives

Exceed our customer's expectations by:

- providing safe cost-effective access solutions
- providing a comprehensive range of high quality access equipment and related services
- supplying and supporting products which meet or exceed Australia/New Zealand legislative Standards
- providing efficient, responsive and professional solutions.

Our People

We focus on making Instant Access a great place to work and an employer of choice for talented and ambitious people.

We strive to ensure our people have the support they need to rise to any challenge and achieve our mission of exceeding our customers' expectations. As an equal opportunity employer we embrace cultural and social diversity across the workforce.

Environmental Statement

Instant Access is committed to conducting business in a manner that manages environmental issues responsibly.

We fulfill this commitment by:

- complying with environmental regulations
- conducting operations in an environmentally sound manner
- applying the principles of reduce, reuse and recycle in all processes
- promoting environmental responsibility among our employees
- striving to ensure that suppliers agree to comply with environmental regulations
- pursuing continuous improvement in our environmental performance
- clearly communicating Instant Access' environmental policy, practices and impact to interested parties.

Service and Safety

Strict service maintenance inspections take place prior to every delivery. Our technicians continually undertake extensive training to keep up with industry standards. Our service vehicles are fully equipped to ensure a fast, comprehensive and efficient response.

Technical Advice - our dedicated mobile technicians are on hand to advise on any technical or operational issues.

Response - our team of technicians are on call 24 hours a day.

Parts Store - we stock an extensive range of spare parts to enable us to respond promptly to your needs.

Repair - our conveniently located branches offer a repair service for most types of access equipment.

Paint Workshop – purpose-built paint bays provide a complete spray painting service on any equipment.

Contact your local Instant Access representative to receive information on a competitive maintenance agreement for your Elevated Working Platforms.

Quality Assurance

We operate and maintain a quality management system complying with AS/NZS ISO 9001:2008. The system covers design, manufacture, sales, servicing and hire operations.

All of our products comply with applicable regulatory requirements and Australian/New Zealand Standards.

Work Health and Safety

At Instant Access, Work Health and Safety (WHS) is of paramount importance. Instant Access is an organisation committed to safe working practices. We are currently working towards AS/NZS 4801 compliance and certification management system.

As an organisation operating in a number of jurisdictions we are committed to complying with differing WHS requirements.

ABOUT INSTANT ACCESS HIRE

We are the Access Specialists.

We offer an extensive range of access solutions:

- Elevated Working Platforms
 - Personnel Lifts
 - Electric Scissor Lifts
 - Boom Lifts
- Scaffolds
 - Aluminium
 - Fibreglass
 - Modular
- Swinging Stages

Personnel Lifts

- Single-person working platforms securely fastened to an aluminium mast
- Electric powered
- Deploying outriggers or built-in counterweights for stability
- Working heights up to 14m
- Compact maneuverable chassis
- Low weight.

Personnel Lifts	3.0m (10ft)	3.6m (12ft)	6.0m (20ft)
Platform height elevated	3.0m	3.6m	6.0m
Working height	4.88m	5.6m	8.0m
Overall width	0.84m	0.80m	0.80m
Safe working load	160kg	227kg	159kg
Transport weight	500kg	776kg / 948kg	1,112kg

Contact your Instant Access representative or visit our website for complete details on these products.

Electric Scissor Lifts

- 'Flat slab' for indoor applications
- Low noise levels
- Zero emissions
- Compact dimensions and excellent turning radius
- Push-out extension decks
- Non-marking tyres available.

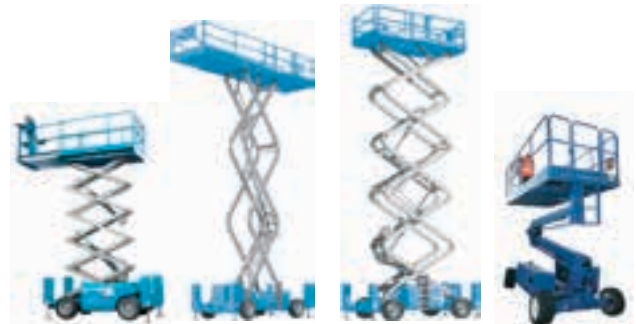

Electric Scissor Lifts	4.5m (15ft)	5.8m (19ft)	6.1m (20ft)	7.9m (26ft)	9.75m (32ft)	12.1m (40ft)
Platform height elevated	4.5m	5.8m	6.1m	7.9m	9.75m	12.1m
Working height	6.5m	7.8m	8.1m	9.9m	11.75m	14.1m
Overall width	0.81m	0.81m	0.81m	0.81m	0.81m	1.75m
Safe working load	272kg	227kg	363kg	227kg	227kg	360kg
Transport weight	1,238kg	1,500kg	1,825kg	1,956kg	2,352kg	5,300kg

Contact your Instant Access representative or visit our website for complete details on these products.

Rough Terrain Scissor Lifts

- Increased power provided by diesel engines or electric motors
- Able to handle heavier weights and steeper gradient
- High flotation 'lugged' tyres
- Even axle weight distribution for increased ground clearance
- Increased robustness and higher payloads.

Rough Terrain Scissor Lifts	7.9m (26ft)	9.75m (32ft)	13.1m (43ft)	16.1m (53ft)
Platform height elevated	7.9m	9.75m	13.1m	16.1m
Working height	9.9m	11.75m	15.1m	18.1m
Overall width	1.75m	1.75m	2.29m	2.29m
Safe working load	680kg	454kg	680kg	680kg
Transport weight	3,709kg	3,890kg	7,692kg	8,274kg

Contact your Instant Access representative or visit our website for complete details on these products.

Articulated Boom Lifts (Knuckle Booms)

- Electric or engine powered units
- Two wheel drive or four wheel drive option
- 360 degree boom/turret rotation
- Greater vertical height and horizontal outreach.

Articulated Booms (Knuckle Booms)	10.5m (34ft)	13.9m (45ft)	18.3m (60ft)	23.7m (80ft)
Platform height elevated	10.5m	13.9m	18.3m	23.7m
Working height	12.5m	15.9m	20.3m	25.7m
Overall width	1.47m	1.79m	2.46m	2.49m
Safe working load	227kg	227kg	227kg	227kg
Transport weight	5,216kg	7,394kg	11,800kg	17,010kg

Contact your Instant Access representative or visit our website for complete details on these products.

Straight Stick Boom Lifts

- Electric or engine powered
- Two wheel drive or four wheel drive option
- Greater height/reach capability
- 360 degree boom/turret rotation
- Fly jibs for additional manoeuvring.

Straight Stick Boom Lifts	13.7m (45ft)	19.8m (65ft)	25.9m (85ft)	38.1m (125ft)
Platform height elevated	13.7m	19.8m	25.9m	38.1m
Working height	15.7m	21.8m	27.9m	40.1m
Overall width	2.3m	2.49m	2.49m	2.49m
Safe working load	227kg	227kg	227kg	227kg
Transport weight	7,151kg	10,349kg	17,563kg	20,739kg

Contact your Instant Access representative or visit our website for complete details on these products.

Aluminium Scaffold Towers

Single Width Double Width

- Manufactured from high tensile aluminium tube
- Lightweight and easy to assemble
- Ideal for narrow access work
- Requires only one platform per level.

Instant 400	Single Width	Double Width	Square Towers
Width	0.74m	1.35m	1.8m, 2.4m, 3m
Length	1.8m, 2.4m, 3m	1.8m, 2.4m, 3m	1.8m, 2.4m, 3m
Safe Working Load	225kg	450kg	Up to 450kg
Maximum Platform Height	2m free standing 5.5m with outriggers	4m free standing 7m with outriggers	5.4m, 7.2m, 9m free standing

Contact your Instant Access representative or visit our website for complete details on these products.

Aluminium Scaffold - Instant Stairwell

Single Width Double Width

- Components snap together without the use of tools
- Provide a comfortable, secure and safe platform
- Compatible with all standard Instant Access scaffold
- Infinitely expandable.

Instant Stairwell	Single Width	Double Width
Width	0.74m	1.35m
Standard Length	1.8m, 2.4m	1.8m, 2.4m
Safe Working Load	225kg	225kg

Contact your Instant Access representative or visit our website for complete details on these products.

Aluminium Scaffold System - Instant Ally

- Medium duty load rating
- Wedge-style system scaffold, similar to steel stage system
- Manufactured in Australia.

Our experienced team of estimators will be happy to quote your specific requirements.

Instant Ally	
Standards	0.5m, 1m, 1.5m, 2m, 2.5m, 3m, 4m
Transoms	0.7m, 1.2m
Ledgers	1.8m, 2.4m, 3m
Truss Transoms	1.2m, 1.8m, 2.4m, 3m
Stairs	1m, 1.5m, 2m
Safe Working Load	up to 450kg
Maximum platform height	up to 30m

Contact your Instant Access representative or visit our website for complete details on these products.

Fibreglass Scaffold Towers and Work Platforms

Single Width Double Width Folding Scaffold

- Made from 2.6mm wall thickness pultruded fibreglass tube
- Low-conductive
- Recommended for use where electrical safety matters
- Modular & expandable
- Available in a double width tower.

Instant Fibreglass Towers	Single Width	Double Width	Folding Scaffold
Width	0.74m	1.35m	0.74m
Length	2.4m	2.4m	1.8m
Safe Working Load	225kg	225kg	225kg
Maximum Platform Height	2m free standing 5m with outriggers	4m free standing 6.5m with outriggers	1.2m

Contact your Instant Access representative or visit our website for complete details on these products.

Instant Snappy Work Platforms

Single Width Double Width

- Australia's leading multi-purpose work tool
- Replaces ladders and can be used as a work stand, bench or trolley
- Assembled in seconds
- Folds up for easy handling and convenient storage
- Durable work platform
- Manufactured from lightweight, high-strength alloy
- Up to 3.2m working height
- Folds down to 24cm wide bundle for easy access through doorways, narrow entries and fits in a wagon, small van or utility
- Available with an extension pack.

Instant Snappy	Single Width	Double Width
Width	0.74m	1.35m
Length	1.8m	1.8m
Safe Working Load	225kg	225kg
Maximum Platform Height	1.2m 1.9m with Extension Pack	1.5m 1.9m with Extension Pack

Contact your Instant Access representative or visit our website for complete details on these products.

Instant Spandeck

- Modular work platform system
- Cost-effective solutions to complicated and difficult access requirements
- Quick and easy installation with very few components.

Instant Spandeck		
Width		0.62m
Standard Length	Sizes to 3m, 3.7m, 4.3m, 5m, 5.5m, 6.1m, 6.7m, 7.3m, 9m	
Safe Working Load		225kg

Contact your Instant Access representative or visit our website for complete details on these products.

Instant Swing Stages

Suspended Scaffold Systems

Our modular suspended scaffold systems provide a safe and cost-effective method to complete all industrial maintenance and construction high-rise work.

Electric winch system work platforms are available in lengths from 1.0m to 16.0m.

A full quote and install service.

Swinging Stages

Width	0.7m
Length	1m up to 16m
Safe Working Load	225kg

Contact your Instant Access representative or visit our website for complete details on these products.

Modular Scaffold

Instant Access provides a number of quality and proven modular scaffold systems. These include the K-Stage modular system and the Instant Ally system. These products can be used in onshore, offshore, domestic, commercial and industrial applications.

Our experienced team of estimators will be happy to quote your specific requirements.

ABOUT INSTANT ACCESS SALES

Instant Access Sales is one of Australia's leading access solutions suppliers. We are focused on providing our customers with quality cost-effective solutions.

We have the widest and most reliable access product range in Australia, which includes:

- Mobile Aluminium Scaffold
- Instant Snappy folding scaffold
- Instant Ally system scaffold
- Fibreglass Scaffold
- Spandek bridging platforms
- Swing Stages
- Scaffold fittings
- Scissor Lifts
- Boom Lifts
- Personnel Lifts
- Specialised access solutions.

Training

Instant Access Sales offers training, at your location or in our facility, to suit your requirements.

The training programs have been established to meet the safety needs of building and industry, ensuring the correct and safe use of access equipment. Our courses have been developed to meet with relevant industry codes and regulations and WHS requirements.

Servicing

Instant Access can manage the servicing requirements of your machines for both preventive or breakdown maintenance. Our skilled service technicians will ensure that your machine is safe and reliable for every use.

Instant 160 Light Duty Scaffold Towers

- Available in either single width or double width
- Ideal for the home handyman or a tradesman
- Constructed from lightweight high tensile aluminium
- Available as a folding scaffold
- Interchangeable snap-on and quick-release braces
- Castors with lockable brake
- Non slip plywood platform construction.

Instant 160	Single Width	Double Width
Width	0.7m	1.3m
Length	2.4m	2.4m
Safe Working Load	225kg	225kg
Maximum Platform Height	5m with outriggers	7m with outriggers

Contact your Instant Access representative or visit our website for complete details on these products.

Instant 260 Aluminium Towers

- Available in either single width or double width
- 200mm lockable castors
- Ideal for the rental market
- 2.6mm wall thickness for added durability
- Constructed from high tensile aluminium
- Base frame or extension frame
- 500mm Transom centres
- Interchangeable snap-on and quick-release braces
- Platform constructed from non delaminating, non slip plywood
- Ideal for narrow and restricted access work areas
- One platform only at each level.

Instant 260	Single Width	Double Width
Width	0.7m	1.3m
Length	2.4m, 3m	2.4m, 3m
Safe Working Load	225kg	Up to 450kg
Maximum Platform Height	2m free standing 5m with outriggers	4m free standing 7m with outriggers

Contact your Instant Access representative or visit our website for complete details on these products.

Instant 400 Aluminium Towers

All Instant 400 series scaffold have 125mm or 200mm lockable castors.

Single Width Tower

- Fast to erect, safe to use and quick to transport
- Ideal for narrow access work
- One platform only at each level.

Double Width Tower

- Ideal for internal or external building maintenance
- Two platforms at each level.

Square Tower

- Ideal where large work areas are required
- Quick and easy to move and create a stable working environment.

Rib gripped for lifetime guarantee.

All of our towers are 100% Australian made and manufactured to Australian standards AS 1576.

Instant 400	Single Width	Double Width	Square Towers
Width	0.74m	1.35m	1.8m, 2.4m, 3m
Length	1.8m, 2.4m, 3m	1.8m, 2.4m, 3m	1.8m, 2.4m, 3m
Safe Working Load	225kg	Up to 450kg	Up to 450kg
Maximum Platform Height	2m free standing 5.5m with outriggers	4m free standing 7m with outriggers	5.4m, 7.2m, 9m free standing

ABOUT INSTANT ACCESS MAJOR PROJECTS

Major Projects is a specialist division of Instant Access Australia/New Zealand and was established to provide engineered access solutions for normally inaccessible situations.

We find solutions to the most difficult challenges utilising the full range of Instant Access products.

Major Projects aims to be the supplier of choice in the provision of engineered access solutions for complex access situations with a focus on safety, innovation and project management.

Our experience includes but is not limited to:

- Under-bridge, wharf and conveyor access
- Rail corridor access
- Barge, work boat and marine access solutions
- Blasting and painting access solutions
- Aviation access design
- Scaffold, rigging and project management solutions
- Shoring and support systems design.

Our service includes:

- Quikdeck access solution and sales
- Alloy scaffold design, hire and sales
- Steel scaffold design, hire and sales
- Full range of mechanical EWP access hire and sale
- Spandek systems hire and sales
- Swinging stage system hire and sales.

Quikdeck Solutions

Instant Access Major Projects is Australia and New Zealand's sole distributor and supplier of the trademarked Quikdeck suspended access system. The Quikdeck system comprises of only a few standard parts that can be configured to allow suspended access to bridges, wharfs, conveyors, jetties and other hard to reach locations.

Space Frame Solutions

The Space Frame system is a versatile modular system used when spans required are not possible with other systems. The modular platform design can be assembled from just a few basic components and configured to fit almost any shape or size.

Instant Spandeck, Swinging Stages and Instant Alloy Solutions

Instant Spandecks are a modular work platform system that provides a simple, cost-effective solution to complicated and difficult access requirements. Our Swinging Stages provides an ideal work platform for a vast range of trades, including painters, glaziers, curtain wallers, sandblasters, general repair and maintenance and concrete repair (predominantly for maintenance of high rise buildings). Our products also include Instant Alloy mobile scaffold towers.

Steel and Aluminium Modular Scaffold Solutions

Instant Access provides a number of quality and proven modular steel and aluminium scaffold systems with many applications within the industrial, commercial, construction and maintenance markets.

These systems include Kwikstage, PERI UP Rosett Flex, Layher Allround and Cuplok.

Encapsulation and Containment Solutions

Instant Access Major Projects provides a real solution to the problem of site protection. Our encapsulation and containment solution is ideal for sandblasting containment, removal of asbestos or lead-based paint, contain dust and debris, capture contaminated water blast run-off or simply for weather protection.

Specialist Design and Manufacture Solutions

Instant Access Major Projects can provide in-house design and manufacture of any specialist access requirement. With over 40 years of access experience, combined with our engineering, installation and project management resources, we provide our customers with the right solution. Areas of major involvement include power stations, aircraft docking systems, large access towers and custom designed under-bridge maintenance systems.
